Title: Talencia Consulting - Junior / Medior PHP Developer

Status: OPENED

From: ICTJOB.BE

Enterprise: Talencia

Description: Talencia is looking for a PHP developer, ideally junior or medior, with a strong desire to grow and get involved in an ambitious project.

Proficiency in PHP is essential; other skills are secondary. Knowledge of Laravel is a plus but not a strict requirement.

You are curious, autonomous, have a genuine sense of initiative, and strong teamwork skills. What matters most is your motivation to learn and push yourself in a dynamic environment.

Location: : Charleroi (100%) on-site

Start date: ASAP

Duration: 6 months with extension

Description

What matters to us:

- Excellent knowledge of PHP,

- Knowledge of Laravel is a plus but not a strict requirement.

- Team spirit and collaboration at the core of our work (our evaluation process will focus more on these qualities than on purely technical tests)

- Willingness to commit long-term to the project, evolve, and build with us

- Ability to work onsite at our offices on site

If you are interested in this job, please send us your updated resume.
