Title: WordPress Web Developer

Status: OPENED

From: WEB

Enterprise: Twine

Description: Ã€ propos de lâ€™offre dâ€™emploi

Join an exciting opportunity to build a modern online training platform for a personal startup. This role involves setting up a WordPress website using Learndash LMS, leveraging existing Astra Pro and Elementor Pro licenses. The project requires seamless integration of essential tools for backup, security, AI chatbot functionality, and a user-friendly dashboard. The position is fully remote, offering flexibility and the potential for future collaboration on follow-up projects.

Deliverables

- Configure and launch a WordPress website tailored for online training
- Integrate Learndash LMS for course management and delivery
- Utilize Astra Pro and Elementor Pro for site design and customization
- Set up reliable backup and security solutions
- Implement an AI chatbot to enhance user engagement
- Develop a comprehensive dashboard for user and admin management
- Ensure responsive design and optimal site performance across devices

Requirements

- Proven experience developing WordPress websites, preferably with Learndash LMS
- Proficiency with Astra Pro and Elementor Pro
- Strong understanding of website security and backup best practices
- Experience integrating third-party plugins and AI chatbot solutions
- Ability to create intuitive dashboards and user interfaces
- Excellent problem-solving skills and attention to detail
- Ability to work independently and communicate effectively in a remote setting
- Availability for a single project with potential for future work
