Title: Freelance Web Developer - CMS

Status: OPENED

From: LINKEDIN.BE

Enterprise: Twine

Description: Ã€ propos de lâ€™offre dâ€™emploi

This contract role focuses on redesigning and enhancing an existing website using Drupal for a municipal organization. The successful candidate will be responsible for updating the siteâ€™s functionality and visual appeal, ensuring a modern and user-friendly experience. The position is fully remote, offering flexibility while requiring a proactive and independent approach to project management. The ideal candidate will be comfortable working with stakeholders to understand requirements and deliver effective solutions that align with organizational goals.

Responsibilities

- Redesign and develop the existing website using Drupal, improving both functionality and appearance

- Collaborate with stakeholders to gather requirements and translate them into technical solutions

- Implement responsive design to ensure optimal performance across devices

- Conduct thorough testing and debugging to ensure site reliability and security

- Maintain clear documentation of development processes and updates

- Manage project timelines and deliverables independently, providing regular progress updates

Skills And Requirements

- Proven experience with Drupal CMS development and customization

- Proficiency in PHP, HTML, CSS, and JavaScript

- Familiarity with responsive web design principles and best practices

- Ability to work independently and manage project deadlines

- Strong problem-solving skills and attention to detail

- Excellent communication skills for remote collaboration

- Experience with website redesign projects is highly desirable

- Availability for a full-time contract position

- No on-site work required; candidates can be based anywhere
